## Bio

Breck Baig (b. 1984, Vail, Colorado) is a multidisciplinary artist who works in painting and ceramics. Her work is based on evoking emotions through color, space, and form. Her goal is to push and pull the viewer through vivid abstraction. These works are made as meditation. Each piece evolves organically, often with emotion and color as the only guiding reference. Her work repeats themes of memory, nature, and distorted realities.

She attended Fort Lewis College. Breck lives and works in Austin, Texas.
